Office Action Summary	Application No. 10/605,165	Applicant(s) CHUANG ET AL.	
	Examiner Kimberly N. McLean-Mayo	Art Unit 2187	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. The enclosed detailed action is in response to the Amendment submitted on February 15, 2007.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 15-19 and 22-26 are rejected under 35 U.S.C. 102(a) as being anticipated by Tseng et al. (PGPUB: US 2004/0199693).

Regarding claims 15-16 and 22-23, Tseng discloses an external memory including a single physical region; and an address translator (inherent) coupled between the microprocessor and the external memory for translating a page and an address within the page pointed to by the microprocessor when accessing the external memory into a physical address of the external memory, and for mapping a predetermined range of addresses (addresses corresponding to the interrupt service routine) within all pages pointed to by the microprocessor when accessing the external memory into the single physical region (Figure 2, Reference 26) of the external memory (Figure 2; sections 0016-0018; Figure 3; each page's [memory bank] interrupt routine is mapped to the interrupt service routine in the single physical region reference 26 in figure 2).

Art Unit: 2187

Regarding claims 17-19 and 24-26, Tseng discloses mapping addresses outside the predetermined range of addresses within all pages to areas of the external memory not within the single physical region (the addresses from the microprocessor are intrinsically translated to the physical addresses of the external memory; addresses that do not correspond with the interrupt service routine are not mapped to the interrupt service but instead are mapped to other areas of the physical memory).

Allowable Subject Matter

4. Claims 20-21 and 27-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Tseng's priority data establishes that the invention was known or used prior to Applicant.

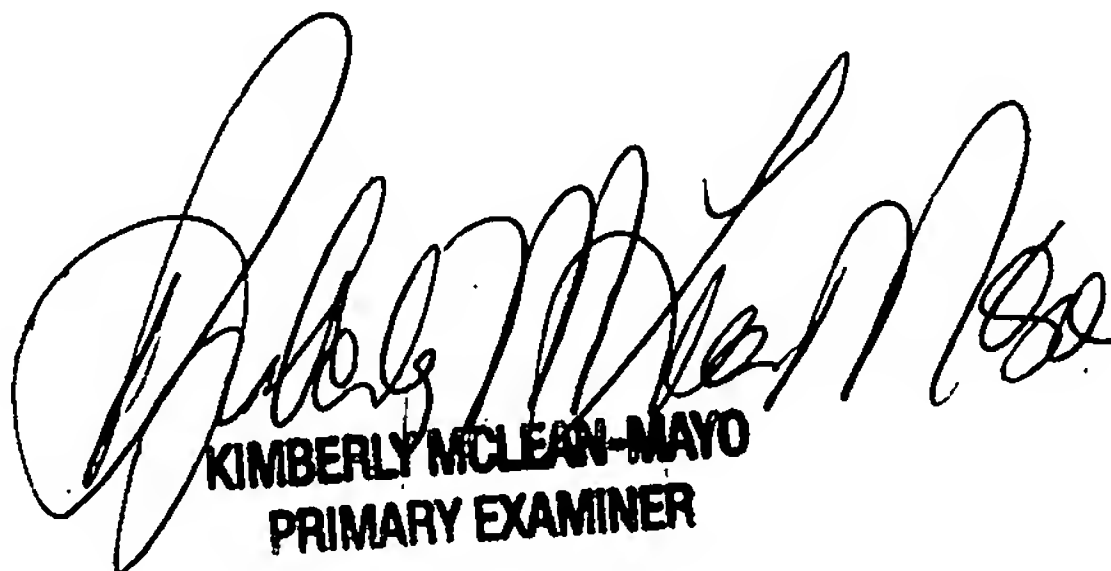

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimberly N. McLean-Mayo whose telephone number is 571-272-4194. The examiner can normally be reached on Monday - Friday (9:45 - 6:15).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Donald Sparks can be reached on 571-272-4201. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
